Re: Joachim-Plattin Ambulance District Public Safety Department Split (#9040)

Dear Jeff:

As you requested, we have performed actuarial valuations as of February 28, 2022 for the active and deferred members reported as Public Safety members and the remaining active and deferred members of the General department of the Joachim-Plattin Ambulance District. The results of the actuarial valuations follow (contribution rates shown below are uncapped employer contribution rates):

	Public Safety Subdepartment	Other General Subdepartments	Combined
<u>Member Statistics</u>			
Number Active	38	3	41
Payroll	\$3,291,461	\$165,602	\$3,457,063
Average Pay	86,617	55,201	84,319
Accumulated Contributions (Actives)	-	-	-
Number Deferred	0	2	2
<u>Actuarial Accrued Liabilities (AAL)</u>			
Active AAL	\$6,453,923	\$323,573	\$6,777,496
Deferred AAL	0	43,139	43,139
Increase AAL - Public Safety Provisions and Assumptions	665,651	0	0
Total AAL	\$7,119,574	\$366,712	\$6,820,635
<u>Actuarial Value of Assets</u>			
Members Deposit Fund (MDF)	\$0	\$0	\$0
Employer Accumulation Fund (EAF)*	4,541,137	258,027	4,799,164
Total Assets	\$4,541,137	\$258,027	\$4,799,164
Funded Ratio	63.8%	70.4%	70.4%
Unfunded Actuarial Accrued Liability (UAAL)	\$2,578,437	\$108,685	\$2,021,471
<u>Computed Employer Contribution Rate</u>			
Normal Cost Rate	13.50%	15.00%	11.40%
Casualty Rate	0.50	0.50	0.50
Prior Service Cost Rate	6.30	5.40	4.80
Total Employer Contribution Rate (Uncapped)	20.30%	20.90%	16.70%

* Assets allocated to each division are estimated.

The Public Safety subdepartment is valued using public safety benefit provisions (normal retirement and deferred age equal to 55) and public safety assumptions. For members proposed to be covered in the Public Safety subdepartment, the actuarial accrued liability increased by \$665,651 and is amortized over 20 years based on the funding policy for benefit changes.

Please note that the results for the ‘Combined’ department are the same as those reported for the General department in the February 28, 2022 annual actuarial valuation report for the City of Lee’s Summit. However, adding the results for the subdepartments shown on the previous page will not match the combined results due to valuing the Public Safety members alone as Public Safety members and combined as General members.

Per LAGERS staff, EAF assets were split between the two subdepartments so that each subdepartment’s funded percent would be the same as the combined General department based upon the General benefit provisions and assumptions as of February 28, 2022. This would require an accounting transfer based on market value, as of February 28, 2022, of \$275,434 of EAF assets staying in the General department with the remainder being transferred to the Public Safety department.

Below are projections needed to comply with Missouri state disclosure requirements (Section 105.665 of the RSMo) regarding the adoption of LAGERS benefits by a political subdivision. Under the Present Plan, members eligible to be considered Public Safety members are valued using General plan provisions and assumptions. Under the Alternate Plan, these members are valued using Public Safety plan provisions and assumptions. The projections below only include members eligible for the Public Safety subdepartment.

Valuation Date	Estimated Projected Payroll	Present Plan			Alternate Plan			Change due to Proposed Provisions		
		Estimated Employer Contribution		Estimated Difference Between AAL and AVA	Estimated Employer Contribution		Estimated Difference Between AAL and AVA	Estimated Employer Contribution		Estimated Difference Between AAL and AVA
		As a % of Payroll	Annual Dollars		As a % of Payroll	Annual Dollars		As a % of Payroll	Annual Dollars	
2022	\$ 3,291,461	16.50%	\$ 543,091	\$ 1,912,786	20.30%	\$ 668,167	\$ 2,578,437	3.80%	\$ 125,076	\$ 665,651
2023	3,381,976	16.50%	558,026	1,883,397	20.30%	686,541	2,544,708	3.80%	128,515	661,311
2024	3,474,980	16.50%	573,372	1,847,461	20.30%	705,421	2,502,727	3.80%	132,049	655,266
2025	3,570,542	16.50%	589,139	1,804,395	20.30%	724,820	2,451,754	3.80%	135,681	647,359
2026	3,668,732	16.50%	605,341	1,753,572	20.30%	744,753	2,390,992	3.80%	139,412	637,420
2027	3,769,622	16.50%	621,988	1,694,323	20.30%	765,233	2,319,588	3.80%	143,245	625,265
2028	3,873,287	16.50%	639,092	1,625,921	20.30%	786,277	2,236,619	3.80%	147,185	610,698
2029	3,979,802	16.50%	656,667	1,547,586	20.30%	807,900	2,141,093	3.80%	151,233	593,507
2030	4,089,247	16.60%	678,815	1,458,483	20.40%	834,206	2,031,948	3.80%	155,391	573,465
2031	4,201,701	15.70%	659,667	1,353,294	19.50%	819,332	1,903,620	3.80%	159,665	550,326

The results shown for each employer only include members reported to LAGERS as of the valuation date, February 28, 2022. The methods and assumptions used in the actuarial valuations were the same as those used in the annual actuarial valuations as of February 28, 2022. In particular, the assumed rate of investment return was 7.00% and the assumed rate of payroll growth was 2.75%.

The actuarial valuation results presented on the previous pages are based upon the employer's benefit provisions as of February 28, 2022. A summary follows:

Provisions	ER #9040
Benefit Program	L-6
Final Average Salary	3 Years
Member Contribution Rate	0%
Retirement Eligibility	Regular

The long-term cost (C) of providing retirement benefits depends only on the benefits (B) that are paid to participants, the expenses (E) of administering the plan, and the investment return (I) generated on invested assets: $C = B + E - I$. For a given level of benefits, the cost of providing those benefits is lowered if administrative expenses are lowered or investment income is increased.

The long-term costs are financed by a series of employer and member contributions. The series of contributions is flexible. If more is contributed in early years, less has to be contributed in later years, and vice-versa. Over time the series of contributions has to have the same value as benefits and expenses. The actuary determines each year's contribution based on a funding method and a set of actuarial assumptions. The chosen funding method and assumptions do not affect the long term cost of providing retirement benefits, but have a strong impact on the series of contributions made to fund the benefits.

This report was prepared using our proprietary valuation model and related software which in our professional judgment has the capability to provide results that are consistent with the purposes of the valuation and has no material limitations or known weaknesses. We performed tests to ensure that the model reasonably represents that which is intended to be modeled.
