Re: Linn County Ambulance District (#8206)

Dear Mya:

As you requested, we have performed actuarial valuations as of February 28, 2026 for the active and deferred members reported as Public Safety members and the remaining active and deferred members of the General department of the Linn County Ambulance District.

Section A – Summary of Employer Contribution Rates as a Percent of Payroll

	<u>Present Plan</u>	<u>Alternate Plan</u>	
	<u>Current General</u>	<u>Remaining General Subdepartments</u>	<u>New Public Safety Subdepartment</u>
Normal Cost Rate	3.90%	3.90%	5.30%
Casualty Rate	0.30	0.30	0.30
Prior Service Cost Rate ¹	<u>5.50</u>	<u>0.00</u>	<u>6.50</u>
Total Employer Contribution Rate	9.70%	4.20%	12.10%
Change in Employer Contribution Rate as a percent of payroll		(5.50)%	2.40%
Increase in Actuarial Accrued Liability ¹		\$0	\$129,369

¹ The increase in the actuarial accrued liability due to adoption of the alternate plan was amortized over a 20 year period to compute the increase in the Prior Service Cost Rate.

The Current General and Remaining General Subdepartments results shown above are based upon General benefit provisions (age 60 and 5 years unreduced retirement eligibility; age 55 and 5 years reduced retirement eligibility; deferred age equal to 60). The New Public Safety Subdepartment results shown above are based upon Public Safety benefit provisions (age 55 and 5 years unreduced retirement eligibility; age 50 and 5 years reduced retirement eligibility; deferred age equal to 55).

Section B – Additional Details

	Present Plan	Alternate Plan		Alternate Plan
	General Benefit Provisions	General Benefit Provisions		Public Safety Benefit Provisions
	Current General	Remaining General Subdepartments	New Public Safety Subdepartment	New Public Safety Subdepartment
<u>Member Statistics</u>				
Number Active	14	-	14	14
Payroll	\$1,067,707	\$0	\$1,067,707	\$1,067,707
Average Pay	76,265	-	76,265	76,265
Accumulated Contributions (Actives)	195,927	-	195,927	195,927
Number Deferred	8	8	0	0
<u>Actuarial Accrued Liabilities (AAL)</u>				
Active AAL	\$863,034	\$0	\$863,034	\$992,403
Deferred AAL	638,137	638,137	0	0
Total AAL	\$1,501,171	\$638,137	\$863,034	\$992,403
Increase AAL - Public Safety Provisions and Assumptions				\$129,369
<u>Actuarial Value of Assets</u>				
Members Deposit Fund (MDF)	\$333,669	\$137,742	\$195,927	\$195,927
Employer Accumulation Fund (EAF) ¹	530,249	500,395	29,854	29,854
Total Assets	\$863,918	\$638,137	\$225,781	\$225,781
Funded Ratio	57.5%	100.0%	26.2%	22.8%
Unfunded Actuarial Accrued Liability (UAAL)	\$637,253	\$0	\$637,253	\$766,622
<u>Computed Employer Contribution Rate</u>				
Normal Cost Rate	3.90%	3.90%	3.90%	5.30%
Casualty Rate	0.30	0.30	0.30	0.30
Prior Service Cost Rate	5.50	0.00	5.70	6.50
Total Employer Contribution Rate	9.70%	4.20%	9.90%	12.10%
Estimated First Year Employer Contribution Dollars	\$103,568	\$0	\$105,703	\$129,193

1 Assets allocated to each division are estimated.

The Present Plan results (Current General) shown above are based upon General benefit provisions (age 60 and 5 years unreduced retirement eligibility; age 55 and 5 years reduced retirement eligibility; deferred age equal to 60) and General assumptions.

Please note that the results for the current General department are the same as those reported for the General department in the February 28, 2026 annual actuarial valuation report for the Linn County Ambulance District. The Alternate Plan results shown in the middle two columns are based upon General benefit provisions and assumptions but with the General department separated into the requested subdepartments. Adding the results for the requested subdepartments using General benefit provisions and assumptions may not match the current General results due to rounding.

The Alternate Plan results shown in the right most column for the New Public Safety Subdepartment are based upon Public Safety benefit provisions (age 55 and 5 years unreduced retirement eligibility; age 50 and 5 years reduced retirement eligibility; deferred age equal to 55) and Public Safety assumptions.

For members proposed to be covered in the New Public Safety subdepartment, the actuarial accrued liability increased by \$129,369 and is amortized over 20 years based on the funding policy for benefit changes.

Per LAGERS staff, employer assets were split between the remaining General and new Public Safety subdepartments so that the remaining General subdepartment's funded percent would be 100% based upon the General benefit provisions and assumptions as of February 28, 2026 with the remainder of the assets going to the Public Safety subdepartment. This would require an accounting transfer based on market value, as of February 28, 2026, of \$457,313 of employer assets staying in the General Department with the remainder being transferred to the Public Safety department. Depending upon actual experience after the valuation date as of February 28, 2026 (e.g., members changing status after the valuation date), an additional asset transfer may be necessary as of the first annual valuation date after the election is made to add the new subdepartment.

Section C – Projections

Below are projections needed to comply with Missouri state disclosure requirements (Section 105.665 of the RSMo) regarding the adoption of LAGERS benefits by a political subdivision.

Remaining General Subdepartments

Under the Present and Alternate Plans, members are valued using General benefit provisions and assumptions.

Valuation Date	Estimated Projected Payroll	Present Plan			Alternate Plan			Change due to Proposed Provisions		
		Estimated Employer Contribution		Estimated Difference Between AAL and AVA	Estimated Employer Contribution		Estimated Difference Between AAL and AVA	Estimated Employer Contribution		Estimated Difference Between AAL and AVA
		As a % of Payroll	Annual Dollars		As a % of Payroll	Annual Dollars		As a % of Payroll	Annual Dollars	
2026	\$ 0	9.70%	\$ 0	\$ 0	4.20%	\$ 0	\$ 0	-5.50%	\$ 0	\$ 0
2027	-	9.70%	-	-	4.20%	-	-	-5.50%	-	-
2028	-	9.70%	-	-	4.20%	-	-	-5.50%	-	-
2029	-	9.70%	-	-	4.20%	-	-	-5.50%	-	-
2030	-	10.70%	-	-	5.20%	-	-	-5.50%	-	-
2031	-	10.50%	-	-	5.00%	-	-	-5.50%	-	-
2032	-	10.30%	-	-	4.80%	-	-	-5.50%	-	-
2033	-	10.40%	-	-	4.90%	-	-	-5.50%	-	-
2034	-	10.30%	-	-	4.80%	-	-	-5.50%	-	-
2035	-	10.20%	-	-	4.70%	-	-	-5.50%	-	-

New Public Safety Subdepartment

Under the Present Plan, members eligible to be considered Public Safety members are valued using General plan provisions and assumptions. Under the Alternate Plan, these members are valued using Public Safety plan provisions and assumptions. The projections below only include members eligible for the Public Safety subdepartment.

Valuation Date	Estimated Projected Payroll	Present Plan			Alternate Plan			Change due to Proposed Provisions		
		Estimated Employer Contribution		Estimated Difference Between AAL and AVA	Estimated Employer Contribution		Estimated Difference Between AAL and AVA	Estimated Employer Contribution		Estimated Difference Between AAL and AVA
		As a % of Payroll	Annual Dollars		As a % of Payroll	Annual Dollars		As a % of Payroll	Annual Dollars	
2026	\$ 1,067,707	9.70%	\$ 103,568	\$ 637,253	12.10%	\$ 129,193	\$ 766,622	2.40%	\$ 25,625	\$ 129,369
2027	1,099,738	9.70%	106,675	621,546	12.10%	133,068	750,267	2.40%	26,393	128,721
2028	1,132,730	9.70%	109,875	602,928	12.10%	137,060	730,664	2.40%	27,185	127,736
2029	1,166,712	9.70%	113,171	581,147	12.10%	141,172	707,530	2.40%	28,001	126,383
2030	1,201,713	10.70%	128,583	555,922	13.10%	157,424	680,548	2.40%	28,841	124,626
2031	1,237,764	10.50%	129,965	513,524	12.90%	159,672	635,952	2.40%	29,707	122,428
2032	1,274,897	10.30%	131,314	469,091	12.70%	161,912	588,840	2.40%	30,598	119,749
2033	1,313,144	10.40%	136,567	421,421	12.80%	168,082	537,965	2.40%	31,515	116,544
2034	1,352,538	10.30%	139,311	366,130	12.70%	171,772	478,898	2.40%	32,461	112,768
2035	1,393,114	10.20%	142,098	306,203	12.60%	175,532	414,572	2.40%	33,434	108,369

Section D – Assumptions and Benefit Provisions

The results shown for each subdepartment only include members reported to LAGERS as of the valuation date, February 28, 2026. For the Public Safety department split calculations included in this letter, please note the following:

- 1) A general active member as of the annual valuation date and identified as an active participant of the Public Safety subdepartment in the data submission is considered to be an active member in the Public Safety subdepartment.
- 2) A general deferred member as of the annual valuation date and identified as a participant of the Public Safety subdepartment in the data submission is considered to be a deferred member in the Public Safety subdepartment only if the member is also an active Police or Fire member with this employer as of the annual valuation date.

The methods and assumptions used in the actuarial valuations were the same as those used in the annual actuarial valuations as of February 28, 2026. In particular, the assumed rate of investment return was 7.00% and the assumed rate of payroll growth was 3.00%.

The actuarial valuation results presented on the previous pages are based upon the employer's benefit provisions as of February 28, 2026. A summary follows:

Provisions	ER #8206
Benefit Program	L-3
Final Average Salary	5 Years
Member Contribution Rate	4%
Retirement Eligibility	Regular

The long-term cost (C) of providing retirement benefits depends only on the benefits (B) that are paid to participants, the expenses (E) of administering the plan, and the investment return (I) generated on invested assets: $C = B + E - I$. For a given level of benefits, the cost of providing those benefits is lowered if administrative expenses are lowered or investment income is increased.

The long-term costs are financed by a series of employer and member contributions. The series of contributions is flexible. If more is contributed in early years, less has to be contributed in later years, and vice-versa. Over time the series of contributions has to have the same value as benefits and expenses. The actuary determines each year's contribution based on a funding method and a set of actuarial assumptions. The chosen funding method and assumptions do not affect the long term cost of providing retirement benefits, but have a strong impact on the series of contributions made to fund the benefits.

This report was prepared using our proprietary valuation model and related software which in our professional judgment has the capability to provide results that are consistent with the purposes of the valuation and has no material limitations or known weaknesses. We performed tests to ensure that the model reasonably represents that which is intended to be modeled.
